QUARRY COMMUNITY DEVELOPMENT DISTRICT
REGULAR BOARD MEETING
APRIL 18, 2017

reviewed the situation prior to the meeting and agreed that it needs to be pulled back. He stated that he had kicked the issue back to Pulte and they are refusing to do the work. Mr. Rex noted that he had looked at it the other day and agreed that it needs to be corrected with manual labor. Mr. Rex stated that the Board can get an estimate, but the HOA would need to choose to do the project. Mr. Evans reiterated that the maintenance responsibility is that of the HOA's. Mr. Rex indicated that Pulte is not at fault, if it comes down to the fact that they built the jetty according to permits. Mr. Demovsky stated that he would talk to Scott Brooks of Pulte, but there is nothing else the CDD can do. Mr. Haber added that the CDD is limited with O&M funds and if the jetty was constructed with the approval of South Florida Water Management District ("SFWMD"), changes would need to first obtain SFWMD approval. Mr. Evans advised that he would look at the permit. Mr. Evans then asked if this issue could be separate from the turnover item to be discussed later in today's agenda, as the Board had indicated that signing was contingent upon repairing the lot and the jetty.

HOA President, Cheryl Ollila asked about the engineering reports being available on the District's website. Mr. Haber opined that there is no minimum requirement or obligation for the engineer's report to be on the District's website. Mr. Evans indicated he would create a CD containing his complete reports.

**RE: Quarry CDD Special Assessment Bonds, Master Trust Indenture
Annual Consulting Engineer's Report**

Dear Ms. Daily,

The terms and conditions in the Quarry Master Trust Indenture dated November 18th 2004 specify that the consulting engineer is to conduct an annual inspection and report his findings to the Board as to whether such portions of the Project owned by the Issuer have been properly maintained in good condition and in working order. As the Consulting Engineer to the Quarry CDD, I, Josh R. Evans, P.E., find that the constructed portion of the Project is in good condition based on our inspection dated March 2017. The Project owned by the Issuer appears to be properly maintained and operated and no repairs are needed at this time.

The Consulting Engineer is also required to make recommendations as to the insurance to be carried per Section 9.14 of the Master Trust Indenture. The Quarry CDD currently owns and maintains wetland systems associated with the development. This type of infrastructure is considered an earthen facility and is not insurable. The Quarry CDD currently does not own any insurable elements of the project. The operation and maintenance of this facility is included in the approved budget. In previous CDD meetings, proper and best management practices, as defined by the Florida Department of Environmental Protection, have been discussed and the necessary funds have been incorporated in the 2017-2018 Budget in order to facilitate these practices.

Furthermore, JR Evans Engineering has reviewed the District's liability and property damage insurance policy provided by Florida Municipal Insurance Trust under Agreement No. FMIT1127 for the period October 1st, 2016 and October 1st, 2017. The district has budgeted sufficient funds to cover the insurance premium.

Please contact our office should you have any questions or require additional information.

Sincerely,

A handwritten signature in blue ink that reads 'Josh R. Evans'.
